

September 2018 Board Meeting

Gene requested a donation for the Bellaire/Club current filming by 20th Century.

August 2018 Board Meeting

No report given.

July 2018 Board Meeting

No report given.

June 2018 Board Meeting

No report given.

May 2018 Board Meeting

On May 3, 2018, Gene attended a meeting at the Atlanta Mayor's Office of Film and Entertainment. Gene states, 150-200 people attended. The meeting was introductory to their office staff. This office has focused on permitting but will expand into other entertainment sectors. They are also working with WAZE to post road closures. Note that no permitting is required if the production size is contained within the property; must provide three business days advance notice for lane closure; must provide five business days advance notice to request full street closure. The Film and Entertainment Office may be followed on Facebook, Instagram, and Twitter. The film office did note HBNA guidelines for film production as a guideline and requested community support for film production.

March 2018 Board Meeting

No report given.

February 2018 Board Meeting

Gene has corresponded with Linda Abaray, the Deputy Director of Community Development, COB. She explained Brookhaven's procedure for film production permitting. Neighbors and film companies must apply. If extraordinary requests are applied for (road closures, night filming, etc.) then the application provides Brookhaven with discretion for additional requirements, including but not limited to neighborhood signatures, e blasts, etc. Linda advised that there are only about 10-15 permits per year and we are not typically advised of the permits. However, she

will advise HBNA if the neighborhood could be affected by permitting. Proposed action: place permit on HBNA website, add email addresses to Linda's correspondence when neighborhood requires notification. Film policy will be posted to the website.

January 2018 Board Meeting

No filming currently in Brookhaven. Gene continues to look at the process of permitting in the City of Atlanta and City of Brookhaven.

November 2017 Board Meeting

Gene Hooff, has recently sent guidelines to all neighbors re neighborhood filming. Neighborhood concern expressed re filming at Peachtree Dunwoody home without permit.

October 2017 Board Meeting

Gene presented the following proposed guidelines for HBNA neighbors renting their homes for filming.

1. Residents that host filming in the neighborhood at their property should do their part to be "good neighbors." For each project, the resident should contact the HBNA Film Committee Chairman with the following information so HBNA is prepared to support your permit:
 - o Name of Production Company
 - o Date and Times of Filming
 - o Description of Filming Activities
 - o Local Production Contact Number
2. Neighbors' concerns should be properly addressed to ensure the shoot goes smoothly and is a positive experience for everyone involved.
3. Every effort should be made to ensure that production company members do not disturb your neighbors, especially if filming requires preparation days involving construction to "dress" your property prior to actual shoot days.
4. Reach out to your neighbors and personally notify them that filming will be taking place at your property.
5. Discuss the company's parking plans prior to the shoot and convey any concerns voiced by your neighbors. This will avoid problems like blocked access to driveways or streets that can cause ill will between your neighbors and you.
6. Hosting filming frequently can take a toll on your neighbors who may not receive the direct financial benefits that you enjoy. The HBNA recommends the Production Company donate \$1000 per day to the HBNA for beautification and other neighborhood improvements.

7. Personal vehicles of cast/crew are not permitted to park on area streets. The production company must arrange off-site parking, and cast/crew must be shuttled to and from the location.
8. Parking of production equipment is limited to one side of the street. Film company vehicles shall not interfere with school bus transportation, the gardeners' activities, trash pick-up, Mail delivery and safe use of the streets or access to resident driveways, unless approved by the affected residents in writing. If the Production Company requires the closing of a street within the neighborhood, the HBNA must be notified thirty (30) days in advance of the road closure to ensure proper communication with all HBNA neighbors, regardless of whether the filming permit application has been submitted.
9. When filming occurs at night, excessive bright lights and noise may disturb your neighbors. Prior to filming, be certain to discuss such activities with your neighbors who may be adversely impacted and make sure that production company addresses their concerns. Additionally, we recommend the production company compensate or relocate your neighbors most impacted.
10. The standard approved filming hours are 7:00am to 10:00pm, Monday to Friday. An extension of the standard filming hours may require that affected residents be surveyed to identify neighborhood concerns and the approved date, hours, and activities must be specifically indicated on the permit.
11. Littering is not tolerated and proper litter disposal needs to be clearly addressed. Further, we suggest your contract include either a No Smoking or designated smoking location. The designated smoking location must be on your property, clearly marked, and have the proper receptacles for all smoking products.
12. HBNA Filming Committee asks the production companies using our neighborhood to offer our neighbors "Extra" opportunities, if available
