

September 2018 Board Meeting

No report given.

August 2018 Board Meeting

Blake Dexter: Blake announced first stats are gathered by cameras. 127,000 cars enter the neighborhood daily. A minimum of 20,000 to 40,000 are nonresidents. Busiest intersections are: Brookhaven Drive at Peachtree Rd.; West Club at Peachtree Dunwoody; Club Drive at Peachtree Rd. Detections were as follows: expired tags (2535), stolen tags (23), stolen vehicles (15), gang cars (2), wanted people (3). HBNA needs more pressure on law enforcement to follow up on detections. There may be a way to interface with BSA patrols. Cameras assisted in recent stolen car recovery.

July 2018 Board Meeting

No report given.

June 2018 Board Meeting

Bob Connelly reported that cameras and license plate readers would be installed in Historic Brookhaven in the next two weeks. Pledges were collected of approximately \$73,000., thus far.

May 2018 Board Meeting

No report given.

March 2018 Board Meeting

Board members brought discussion of having BSA and HBNA security having a closer operational relationship. Blake continues to discuss final stages of camera and LPR fundraising campaign. More signs are posted and pledges collected. The City of Brookhaven is our sponsor to place camera equipment on utility poles. Board reviewed budget for 14 license plate readers and 7 cameras. There will be a LPR at every inbound intersection to Historic Brookhaven. Thirty percent of the neighborhood have pledged for the camera installation, thus far.

February 2018 Board Meeting

Blake updated the Board re the Security Cameras and LPR's. Only LPR's, no security cameras are in place for phase one of proposed installation. COB supports mounting LPR's on utility

poles. Based on HBNA Attorney's recommendations, there will be bylaw changes re LPR's...The changes will be proposed at spring HBNA meeting. There is a current campaign to encourage neighbors to commit to \$200-\$250 per yr by mid April and Install License Plate Readers by mid June. The City of Brookhaven and BSA have committed to installation of two cameras each. There will be an insert in upcoming newsletter re CCTV or LPR campaign; encourage neighborhood participation.

January 2018 Board Meeting

The committee continues to meet with legal consultant, GA Power, City of Brookhaven, and donors. Goal is midsummer for first installation.

November 2017 Board Meeting

Blake reports, amount of money raised for neighborhood security cameras will dictate final security camera plan. The goal of 50% of our 700 households will give funds for security cameras. The committee has raised \$150,000.; plus pledges of approximately \$33,775 for year one, \$20,025 for year two and \$20,025 for year three. Yard signs are planned to promote donations. The Board discussed the separation between HBNA and BSA security responsibilities and activities.

October 2017 Board Meeting

Blake Dexter and Haig Kazazian from the HBNA Board have been researching technology to provide more security for our neighborhood for months and presented their findings; they recommended two solutions at a town hall meeting in August and support was overwhelming. The two solutions are Cameras and License Plate Readers (LPRs). Two Cameras would be placed at every entrance into the neighborhood catching both inbound and outbound traffic. Two LPRs would be placed at the top 5 traffic entrances to neighborhood, catching both inbound and outbound traffic. LPRs connect directly to City of Brookhaven Police vehicles. Cameras only: The benefits of the cameras are they will have blue lights atop them to act a deterrent and will help solve crimes after the fact. The benefits of the LPRs are they are proactive - a car passes a camera which has been stolen or the driver is wanted, the police are directly notified and can respond. We will move forward on the camera only solution and based on the leasing price for this equipment from Georgia Power, we will need to increase our yearly dues this year from \$100 to \$150. To implement the LPR part of the solution, we will need additional support from our neighbors. We have included a pledge card in annual HBNA dues billing to

determine if we have the financial resources to proceed implementing this important part of the plan. This will be in addition to the annual dues of \$150, for a minimum of 3 years. Additionally, many are members of the Brookhaven Security Association in the neighborhood which is separate from HBNA. The purpose of that Association is to deter crime and improve safety within Brookhaven through the enlistment of off-duty Police Officers who have the authority to make arrests and directly interface with 911. The addition of the security cameras broadens our ability to protect the neighbor 24/7 and we believe is good value for our funds. We will continue to work with the Security Association in order to deter crime and improve the overall safety of our neighborhood.

September 2017 Board Meeting

Current issues re security cameras are poles to mount cameras, funding, coordination of HBNA and BSA

August 2017 Board Meeting

Current issues discussed for security cameras are 1) two cities in Historic Brookhaven 2) Contract and legal issues 3) Camera mounting 4) Payment of CCTV services
Town Hall Meeting scheduled for August 16, 2017 to discuss CCTV issues with neighborhood

July 2017 Board Meeting

The CCTV committee plans a neighborhood Town Hall meeting August 16, 2017, 7:00 pm, at Capital City Club, regarding the surveillance cameras and security using cameras in our neighborhood. The HBNA committee has been researching camera solutions as an option to deter crime from entering our neighborhood and to identify criminals in our neighborhood. The board also discussed how cameras can be mounted or positioned on neighborhood streets.

June 2017 Board Meeting

Blake discussed, possible security cameras for neighborhood. HBNA falls under the articles of operation of The Georgia Homeowners Association. Georgia Power has presented HBNA with proposal for security cameras. Current goals and issues are poles used to mount cameras, neighborhood education (town hall meeting), and specifics of contract with Georgia Power (cost, length of contract, etc.).

May 2017 Board Meeting

Blake Dexter and Haig Kazazian, continue to discuss security cameras and license plate readers for the HBNA neighborhood. Recent talks have taken place with ATT, Georgia Power, and the local police organizations. Issues to clarify include pricing and fees, monitoring, length of contract, liability, placement and updating of equipment. Home cameras are also effective for security; the home security companies install home cameras. Blake and Haig would like to conclude current decision making especially related to financial costs soon.

April 2017 Board Meeting

Blake Dexter, discussed need for active security cameras in our neighborhood. The committee discussed possible contracts with Georgia Power or ATT. The current issues are funding of the project (initially and in the long term), monitoring of data, vendor, and possible legal issues.

March 2017 Board Meeting

Blake states, committee is in receipt of the final ATT proposal. The GA Power proposal is expected within the week. Committee plans a presentation to the HBNA Board in the near future.

February 2017 Board Meeting

Blake reports, the ATT information and quote for services will be received in the next ten days. The committee will receive Georgia Power quote for services as well. The quotes have a short time span for guaranteed pricing.

January 2017 Board Meeting

Blake discussed the two avenues of camera system control, 1) Management by HBNA vendor; more HBNA control 2) Police department control. He discussed the possible ongoing obligations and costs. Blake discussed phasing in of the program or the plug and play protocol. Currently ATT and Georgia Power are the two primary vendors. ATT has the most experience while Georgia Power owns the power. Haig Kazazian and Blake Dexter continue to explore expanding the CCTV system for neighborhood security.

December 2016 Board Meeting

Haig Kazazian, Blake Dexter: Discussion re closed circuit TV using ATT Smart City or GA Power (has a lease option) New Initiative project was presented. The Plug and Play plans were discussed for realistic financing. Committee members have met with the above companies. Challenges continue to integrate The City of Atlanta, The City of Brookhaven and 16 entrances

to the neighborhood. Costs for the project would expect to exceed \$100,000. The project could be put in in steps or phases. The City of Atlanta Police Foundation offers support for the project.
